

Industrial Keyboard Product Catalog 2026

Stainless steel, waterproof silicone, membrane, medical and kiosk keyboards with OEM/ODM customization.

Industrial Metal Keyboards

IK-M300 IK-M300 Stainless Steel Panel Mount Keyboard

86-key 304 stainless steel keyboard with IP65 sealed front panel, rear mounting studs and USB/PS2 dual interface for machine control cabinets.

IK-M200 IK-M200 Compact Metal Desktop Keyboard

64-key compact stainless steel keyboard with non-slip rubber feet, IP65 waterproof design and a heavy-duty shielded USB cable.

IK-M400 IK-M400 Backlit Vandal-proof Metal Keyboard

Full-size 104-key vandal-proof keyboard with blue LED backlight, IK09 impact rating and IP67 front panel for 24/7 public and night-shift use.

Waterproof Silicone Keyboards

WS-K108 WS-K108 IP68 Washable Silicone Keyboard

Full-size 108-key keyboard fully encapsulated in medical-grade silicone, rated IP68 and washable under running water or high-pressure spray.

WS-K87 WS-K87 Backlit Waterproof Silicone Keyboard

Tenkeyless 87-key silicone keyboard with white LED backlight and IP67 sealing, designed for night-time outdoor terminals and vehicles.

WS-R85 WS-R85 Flexible Silicone Keyboard with Magnetic Mount

Lightweight roll-up silicone keyboard with a magnetic back plate that sticks to steel cabinets and machines - IP67, 85 keys.

Membrane Switches & Keypads

MS-P100 MS-P100 Tactile Membrane Switch Panel with LED Indicators

12-key metal-dome membrane switch with embossed keys, 4 status LEDs and a polyester graphic overlay; ZIF flex tail connector.

MS-P200 MS-P200 Membrane Keypad with LCD Window

16-key membrane keypad with a clear hard-coated display window, navigation cluster and rigid aluminum backer for instrument front panels.

MS-P300 MS-P300 Backlit Membrane Switch with Light Guide Film

Ultra-thin backlit membrane switch using LGF light guide film for even key illumination at only 1.6 mm total thickness.

MS-C400 MS-C400 Capacitive Touch Membrane Panel

Flat capacitive touch panel combining a printed overlay with an on-board touch controller - slider, wheel and 8 touch keys.

Medical Keyboards

MD-K100
MD-K100 Antimicrobial Sealed Medical Keyboard

Fully sealed IP68 medical keyboard with silver-ion antimicrobial silicone, clean-screen hotkey and cleaning reminder LED.

MD-K200
MD-K200 Medical Keyboard with Sealed Touchpad

Compact sealed medical keyboard with an integrated glass-surface touchpad, ideal for imaging carts and patient-side terminals.

MD-G300
MD-G300 Glass Capacitive Medical Keyboard

Flat tempered-glass keyboard with capacitive touch keys - no moving parts, no gaps, wipeable with any hospital disinfectant.

Kiosk & Self-service Keyboards

KS-P16
KS-P16 Stainless Steel Kiosk Keypad 4×4

16-key vandal-proof metal keypad with numeric and function keys for payment kiosks, ticketing machines and parking terminals.

KS-P12
KS-P12 Backlit Access Control Keypad 3×4

12-key backlit zinc-alloy keypad with IP66 rating for door entry, intercoms and outdoor access control systems.

KS-K70
KS-K70 Stainless Steel Kiosk Keyboard, Rear Mount

70-key compact metal keyboard designed to be mounted from behind a kiosk fascia, leaving no visible screws on the front.

Keyboards with Trackball / Touchpad

TB-K38
TB-K38 Metal Keyboard with 38 mm Trackball

Stainless steel industrial keyboard with an integrated 38 mm sealed optical trackball and left/right mouse keys, IP65 front panel.

TP-K25
TP-K25 Industrial Keyboard with Touchpad

Stainless steel keyboard with a sealed resistive touchpad that works with gloves, wet fingers and stylus - IP67 front.

TB-P50
TB-P50 Panel Mount Keyboard with 50 mm Trackball & Function Keys

Large-format panel mount keyboard with 50 mm trackball, 24 programmable function keys and backlight for control rooms and marine bridges.

Custom OEM Keypads

OEM-SR
Custom Silicone Rubber Keypad

Compression-molded silicone rubber keypads with carbon pills, laser-etched legends and PU coating, made to your drawing.

OEM-HMI
Custom HMI Aluminum Front Panel with Keypad

Turnkey HMI front panel assembly: CNC-machined aluminum bezel, membrane keypad, display window, encoders and wiring harness.

OEM-MK
Custom Metal Keypad with Your Layout & Legends

Stainless steel keypads in custom matrices (1×4 up to 6×8) with laser-etched or color-filled

legends, backlight and any interface.
